Nothing beats the clean look of a solid dress shirt. But even at a solid color there are still some features that make our shirt stand out from the crowd. The shirt is crafted in our favorite high performance twill texture. This gives the perfect sheen to it, results in a substantial good hand feeling and makes it less transparent than similar white dress shirts. A split yoke in back, medium cut-away collar and a 35 mm. raised placket set the edge for this sharp, but classic shirt.

The Bedford micro-cord structure in solid color gives the shirt class, and are well recommended for either business or a bit less formal occasions.

The fabric is well known for us, and is aiming to be one of our top 3 classics.

This time we added our new natural mechanical stretch performance to it. It allows the fabric to hold top grade non-iron performance, and adds greater movement with up to 12 % stretch the weft way.

The typical Redbow line-shirt. Classical, yet detailed, giving the shirt a modern sophisticated look.

We might be one of very few brands that, at the present, can handle the combination NON IRON & STRETCH. It's a tricky combination, you see, which requires quite a lot of thinking, testing and developing to get all this performance into one single shirt. Luckily, we do enjoy the hard-work & developing.

RB121 comes with stylish details, such as a passepoiled chest pocket and matching contrast colors at the right spots.

It has the look of a classic woven dress shirt, but indeed it is a knitted shirt.

Combining the best from two worlds, makes this the world's most comfortable good looking dress shirt. It is like wearing a t-shirt, incredible comfort.

We make this happen by using high-end double 60 compact yarn, and a soft treatment. This gives the shirt a luxurious out-view and silky touch. Also, when using high quality yarn in a knitted fabric, you get a natural non-iron performance, so you simply wash it, hang dry it and wear it. We have strong confidence in this new and innovative way of making fine-shirts. And by this we are looking forward to develop more colors and patterns to the knitted program. Enjoy!

The popularity of our technical car coat, and the good test reports, made it necessary for us to make a hooded version. And so was the parka born.

It has the same technical performances as the car-coat, but we made it with a bit more bold attitude of a "big city-parka". Outside front pockets, long sloping tail in the back and more straight fit. The way you would want to wear it, providing you with the right feeling of style, luxury and versatility in any given day or occasion.

The main Technical features are 360 degree stretch, thin Primaloft-Silver insulation, water and wind proof. This highly technical, extreme lightweight parka is perfect for usage in the -15°C To +15°C temperature range.
