

WHEN TIME PASSES  
THE ORIGINAL REMAINS

  
TEE JAYS®

SINCE 1976

# THE ORIGINAL HOLDS THE FUTURE

TEE JAYS has since 1976 contained the vision to produce the world's best t-shirts. Not only are the quality and products carefully developed – our values are also incorporated into everything, we put our TEE JAYS stamp on: Do what you do best and do it with passion.

Through the years our development has taken us on a long journey where values, passion and quality have been constants. While a lot has happened since the beginning, we are now even stronger with our classics that constantly get improved along with new classics that occur as we keep developing.

Welcome to TEE JAYS 2023.

# OUR JOURNEY

In 1976 Terry and Jim founded TEE JAYS Mfg. Co working out of Terry's garage with nothing but a bunch of sewing machines. After a few years, Jim decided to leave the company, and Terry continued carrying out his dream.

Living in the beautiful countryside of Florence Alabama, Terry and his family knew textile manufacturing and worked in the industry for their entire careers. Terry's grandmother worked her whole life for a single garment-manufacturing mill running a flat lock machine every day until her retirement. His father Paul started in the mills right out of high school.

The garage with the 25 sewing machines quickly became a full vertical production plant with knitting, dyeing, cutting, sewing, and screen-printing. The Wylie family was determined to bring the complete T-shirt with decoration into the premium market. Terry saw the potential in making printed and custom-made garments instead of selling blank printables as a key strategy, which turned out to be a very clever and lucrative move.

In the period from 1976 to 2002, Terry and his family build a very well respected company in Florence Alabama. At their peak, TEE JAYS employed 4000 people in Florence, had 19 production plants and shipping departments and were the third largest employer in the Shoals area and the fifth largest T-shirt manufacturer in the USA

## ACROSS THE ATLANTIC

On a sunny day in 1979, my father George visited a tradeshow in Anaheim, California. At that time, he and my mother Lone owned the wholesale business LG Sportswear in Denmark. As my dad walked past the TEE JAYS stand, a man remarked "I love the smell of your pipe". The man was Terry, and his comment became the beginning of a lifelong friendship. My dad later visited Terry in Florence, Alabama to discuss the possibilities for representing TEE JAYS in Europe. Four weeks later the first shipment of Sof Tee heavyweight T-shirts was sent from Alabama to LG Sportswear. At that time, my mom and dad ran LG Sportswear from the basement in our home, and my older brother Anders and I earned our first pocket money packing the orders.

My dad did a great job for TEE JAYS. He made a success of selling the original US Sof Tee T-shirt in high-end retail stores in Denmark and wanted to do the same in other European countries. In 1980 he was hired as the European Sales Director for TEE JAYS – a job that he was dedicated to for more than 20 years. The business grew stronger, and so did the friendship between Terry and my father. In 1986 my dad had a Danish artist draw a new logo for TEE JAYS, and he gave it as a gift to Terry. Terry loved it so much that he changed the logo on all T-shirts, boxes, trucks etc.

## THE SECOND GENERATION

As a kid I was fascinated by my dad's work and the life he led. I always knew that I wanted to be exactly like him. One day my dad asked if I wanted to go to the US and work for TEE JAYS Mfg. Co. to learn the production side of the business. I didn't hesitate for a second, and in August 1990 I went to Alabama. I spent 18 months working in all departments and learning about knitting, dyeing, cutting, sewing and screen-printing. When I returned to Denmark, I started working for LG Sportswear, primarily focusing on sales and purchasing. The timing was perfect. Terry and George agreed that we could outsource our own Basic 150 GSM T-shirt to Bangladesh with a TEE JAYS neck label. The first offshore TEE JAYS tee was produced in 1995.

## A NEW CHAPTER

A lot has happened since Terry opened a small production facility in his garage in Florence, Alabama. To say the least. For 25 years my family had strong ties to TEE JAYS, Terry and his family; as customers with LG Sportswear ApS, my father as an employee, and most importantly as very close friends. Terry's retirement came at a perfect time, and we were ready to carry on his life's work.

I remember clearly when my dad George said to me in the early spring of 2003: "What's the plan now? It's your time son". I was 31 years old, and the answer was clear. I saw a big gap in the European promotional market, and I wanted to fill it by creating a full-line brand of quality products. After watching and looking up to Terry and my dad for so many years, I couldn't wait to carry on the torch and give the TEE JAYS Brand a new life in Europe, focusing on lifestyle products and high quality.

The market responded positively to the TEE JAYS quality level and new image. With the support of our Scandinavian customers and European distributors, TEE JAYS became known as the premium leisurewear brand in Europe. In 2015 we got the rights for TEE JAYS in the US and purchased the teejays.com domain.

We have spent the past decades defining and strengthening the TEE JAYS brand and our position in the European market. We are currently in the process of making a new office and warehouse additions in order to be able to service the huge demand on the European market. And to secure space for our ambitious five-year growth plan. Our primary goal is to stay focused and do what we do best - that is to provide excellent service and to produce high-quality essentials that last.

It might be a long way from Alabama to Denmark. But we've taken the most important things with us, which is the brand's vision and the values that TEE JAYS was founded on. It is the love of excellent, durable materials, and the uncompromizing approach to construction and fit. And the simple yet very well thought-out design that makes the clothes look and feel amazing.

This applies to all our designs, from T-shirts and polos to sweats and jackets. Our designs are simple, and even though we take inspiration from trends, our top priority will always be to create timeless classics that will last for years and years. Not only because it's the most comfortable for the people wearing it, but also because durable clothing is better for our planet and for the industry. This aligns with our continued focus on sustainability. Many of our styles are available in certified organic cotton and some even in materials made from recycled plastic waste.

I'm very proud of where we are today. That we've been able to carry on Terry's life's work and stay true to the founding values of TEE JAYS, while still moving forward and adapting to the world that we're living in today.

I can't wait to see what the future holds.

Peter Høfler  
CEO/owner

# RESPONSIBILITY

## ORGANIC & RECYCLED

Our Organic and Recycled logos are used to indicate which styles are made from Organic cotton and Recycled post-consumer plastic waste.

At TEE JAYS we recognize the huge responsibility we hold as a fashion retailer. And we owe it to our planet and our next generations to do what we can to help foster positive change and promote a more sustainable way of making clothes. Clothes in premium quality that lasts. Within our range you will find products made in Organic cotton and Recycled polyester fabrics. In 2021 we also became a proud member of The Better Cotton Initiative/BCI and off course every product are covered by STANDARD 100 OEKO-TEX®.

Our Code of Conduct is based on UN Global Compact's 10 principles which are based on internationally adopted declarations and conventions on human rights, labour rights, environmental protection and anti-corruption. TEE JAYS does not own any factories, but we cooperate with suppliers that understand the importance of complying with the guidelines of our Code of Conduct about the ethics and behaviour throughout the supply chain.

At TEE JAYS we take our responsibility to our planet and next generation very seriously. That is why we are passionate about doing our part by promoting sustainable ways of making clothes, which means: clothes in premium quality that lasts. This includes re-thinking materials and how we use them.

As part of our long-term sustainability strategy we are always looking for ways to offer less harmful and more sustainable alternatives to traditional cotton. We have already introduced many of our styles in organic cotton, and we are in the process of turning more of our styles organic. In 2021 we introduced our first ever collection made from recycled post-consumer plastic.

What exactly makes organic cotton so much better for our climate? It has to do with the way the cotton is produced. The production of organic cotton doesn't allow the use of toxic pesticides and fertilizers or genetically-modified seeds and pesticides, which reduces air pollution and is much healthier for the soil, for ecosystems, and for cotton farmers.

Organic cotton production also uses 88 percent less water and 62 percent less energy than traditional cotton production. And then there are the personal benefits: being free from chemicals, organic cotton is proven to be hypoallergenic and is much softer and better for the skin than conventional cotton.

TEE JAYS are a member of Amfori, the leading global business association for open and sustainable trade. Its mission is to enable each of its members to enhance human prosperity, use natural resources responsibly and drive open trade globally. TEE JAYS Participate in Amfori BSCI in order to better monitor and improve the social performance within our supply chains. We endorse the eleven principles of the Amfori BSCI Code of Conduct and recognize that improving working conditions in our supply chains is a necessity for the overall resilience and performance of our business.

---

TEE JAYS products are covered by STANDARD 100 OEKO-TEX® which is one of the best-known labels for textiles and guarantee that the clothing does not contain harmful substances. It is the world's leading independent testing institutes and regularly controls all testing for substances which are harmful to human health and the environment. Clothing that are certified by the STANDARD 100 OEKO-TEX® is subject to requirements covering pH value and the content of, for example, pesticides and heavy metals.

---

The Organic Content Standard/OCS verifies organically grown content and tracks it from the source to the final product. Products certified to the Organic Content Standard/OCS contain organically grown content that has been independently verified at each stage of the supply chain, from the farm to the finished product. The purchase of Organic Content Standard/OCS certified products demonstrates demand for organic agriculture. Organic cotton is produced and certified to organic agricultural standards, which require practices to sustain ecosystems.

---

The Recycled Claim Standard/RCS verifies recycled content and tracks it from the source to the final product. Products certified to the Recycled Claim Standard contain recycled content that has been independently verified at each stage of the supply chain, from the recycler to the finished product. The purchase of RCS certified products demonstrates demand for recycled content.

---

TEE JAYS are a proud member of Better Cotton and we are committed to improving cotton farming practices globally with Better Cotton. Better Cotton is sourced via a system of Mass Balance and is not physically traceable to end products. We are committed to sourcing 95% of our cotton as more sustainable cotton by 2025. More sustainable cotton includes Better Cotton and Organic cotton. Better Cotton connects people and organizations throughout the cotton sector, from field to store, to promote measurable and continuing improvements for the environment, farming communities and the economies of cotton-producing areas.

## THE BEAUTY OF THE NORTH

Even though we love to travel the world, we also love our home in northern Denmark. The city Aalborg is as close to home as it gets, and its charm never goes unnoticed. The city is often compared to Paris probably because of the small, old streets and big, contemporary buildings that fuse with strong character, working-class quarters, study quarters, parties, and colours.

The city contains a lot of original details and history but is still a modern University-town with innovative initiatives and green solutions that matches TEE JAYS' approach perfectly. The city creates a beautiful setting for our new collection that offers fine classics and some very special news.

THE ORIGINAL CLASSIC

NORDIC ADVENTURE

# THE BASIC TEES

Our Basic Tees cater to men and women who want everyday comfort without compromising with style and quality. Made from high-quality ringspun cotton, these T-shirts are extra soft and durable. They feature shoulder-to-shoulder taping, a large neck opening, and a slim neck rib, and the slightly tailored fit makes them good for any occasion.

### THE POWER TEE

Make a powerful statement with our Power Tee in organic cotton. The T-shirt comes in a wide range of sizes, including children's sizes, and has a tear-away label and a tubular body. A perfect choice for promotional wear.

# A STRONG CLASSIC

## BASIC TEE

Looking for an affordable Basic Tee in premium ringspun quality? Then our Basic tee style 1000 is a perfect choice. Made from ringspun cotton and features shoulder-to-shoulder taping for improved stability.

# PREMIUM BASIC TEES

With more than 1 million pieces produced each year, our 150 gsm Basic Tee, and 185 gsm Sof Tee is two of our best promotion T-shirts. Made from ringspun cotton and features shoulder-to-shoulder taping for improved quality. These basics set new standards for a basic Tee.

# FLEECE JACKETS

A quality fleece jacket is a wardrobe must-have if you enjoy being outdoors. It's durable, warm and timeless, and can be worn as a mid-layer or simply as a jacket. While a typical fleece leans towards casual wear, choosing a knitted fleece in a neutral colour will make it feel a bit more dressed up. Browse our collection and find your favorite.

## OUTDOOR FLEECE

A classic outdoor fleece with two large front pockets. We have used a melange knit fabric and finished it with a stylish single jersey tricot on collar and cuffs, which gives the Outdoor Fleece a cool and authentic look.

### CROSSOVER BODYWARMER

For this trendsetting bodywarmer we have used a combination of our lightweight polyester 300T with padding and softshell, which adds a sporty, urban vibe.

## VIBRANT AND MODERN FEEL

### CROSSOVER JACKET

A two-tone jacket with a shaped fitting, made from a combination of a light polyester 300T with padding and softshell for a casual, urban vibe. It features an adjustable hem, elastic cuffs, two side pockets, and an inner pocket.

## HOODED CROSSOVER JACKET

Our cool Hooded Crossover jacket features stunning detailing such as a chest pocket with a zipper and an adjustable hood, making it both practical and fashionable. For a sporty look we have used a combination of a light polyester 300T with padding and softshell. The jacket has an adjustable hem, elastic cuffs, two side pockets, and an inner pocket.

Hooded Crossover Jacket  
Style 9628

### HYBRID-STRETCH JACKET

This Hybrid-Stretch Jacket is made of polyester 300T fabric in a combination with stretch fleece panels and sleeves. It is insulated with premium DuPont™ padding at the body. Cuffs and elastic banding at bottom hem for a modern look. It features quality SBS zippers, inner pocket, and two large hidden front pockets.

## PREMIUM PADDING

### HYBRID-STRETCH BODYWARMER

The Hybrid-Stretch Bodywarmer is cool and modern with its combination of stretch fleece and woven fabric. The insulation with premium DuPont™ padding at the chest and back keeps your body warm, while the stretch panels allow for greater mobility. Ideal for both work and outdoor activities.

## HOODED OUTDOOR CROSSOVER

This casual midyear jacket is a combination of our knitted fleece and our 400T sporty ripstop polyester jacket. It has an authentic, casual, and sporty look and is perfect as your daily leisurewear jacket.

## URBAN FAVORITES

In our Urban Jacket collection you'll find comfortable and functional jackets with a casual and sporty look. Like Urban Adventure jacket, which is a premium outdoor jacket crafted in a two-layered water-repellent material. Filled with DuPont™ padding and made from premium materials, this jacket is guaranteed to keep you warm and comfortable all day – even in cold and rainy autumn weather.

#### URBAN CITY JACKET

A classic jacket in polished soft twill with high quality DuPont™ padding. This jacket has integrated functional features such as inside detachable collar for wind catching ability, adjustable sleeve cuff, and inside regulation at waist.

### URBAN ADVENTURE JACKET

This jacket is crafted in a two-layered performance material with a detachable hood. It has water-repellent skills and is insulated with high-quality DuPont™ padding. Black dull trim contrast gives the jacket an urban edge. The jacket has a double pocket opening with a discreet zip puller and a flap with black metal snap buttons. This jacket will provide you with excellent warmth, amazing durability, and an urban outdoor look.

## RICHMOND JACKET

The Richmond Jacket is characterized by supreme, long-lasting quality, a shaped fit, and a slightly aristocratic vibe. The diamond quilted pattern with lightweight padding, stylish elbow patches, and the detailed collar gives this jacket a sophisticated and classic look. It's perfect for a day in the countryside or a break in the city.

## LITE SERIES

Plastic is difficult to get rid of. It is mostly nonbiodegradable, and too much of it ends up in our oceans. By using materials made from recyclables we can contribute to the elimination of plastic waste while reducing energy use and the demand for oil.

This is why we have created our first ever collection using recycled fabrics, meaning fabrics made from unusable post-consumer plastic and nylon waste. These styles are marked with our "recycled" logo.

### LITE HOODED JACKET

This lightweight padded jacket with hood is made of recycled polyester and insulated with 25% extra premium DuPont™ padding than style 9644. The matte textured 1×1 ripstop fabric and clean Scandinavian design give this jacket a modern silhouette. It features a quality SBS zipper, inner pocket, two large front pockets, and is designed with invisible elastic cuffs.

### LITE BODYWARMER

Our Lite Bodywarmer is your new go-to on those semi-cold days. It has a light feel, is water-repellent, and features practical details such as front pockets and an adjustable hem. As part of our conscious jacket collection, it is made from recycled plastic waste.
